Stair Nosings - The Leading Edge

Spectrum Floors offers a wide range of quality profiles for Exterior and Interior applications.

Stair Nosings are used to define the edge of steps by inserting a coloured, slip resistant insert which is tested to the Australian Standards and 'Light Reflectance Values'. The stair edgings reduce the risk of any trip hazard

and prolong the life of the floor covering.

Included in the range are lighted nosings and 'Stairtile' a unique, durable and versatile product for stone, timber and ceramic tiles.

- We have the widest range in Australia
- User friendly and prevent accidents with OH & S and public liability implications
- Create a nice finishing touch

Our extrusions meet current standards - AS1428.1 NCC 20114 BCA Requirements

**Feel free to use our technical advice service - call us today
