

RECYCLING POLICY – PRODUCT STEWARDSHIP

Spectrum Floors (Aust.) Pty. Ltd., supplies rubber flooring products manufactured to high European environmental standards with an expected life in excess of 20 years and do not include nitrosane chemical components which are used in car tyres.

Products can be recycled through recognized rubber recyclers Australia wide to reduce transport, energy and costs. We suggest the closest company with reference to Google 'rubber recyclers – Australia'.

We remain available to assist and facilitate should further detail be required. Note also our 'Environmental Responsibility Statement' available on the website.
