

Spectrum Excellence

Attractive carpet look in entrance matting

Spectrum Excellence offers proven performance in four key areas - moisture absorption, dirt 'brush-off', cleanability and appearance retention.

These benefits combine to make Spectrum Excellence one of the most effective entrance floorcoverings.

Spectrum Excellence's exceptional standards of performance are guaranteed by unique yarns, exclusive to Spectrum Excellence. Spectrum Excellence can stop up to 90% of dirt and moisture within 6 metres of entry.

The Spectrum Excellence clean-off system is uniquely functional and high quality. It is composed of an ingenious combination of small and large 33% recycled, polyamide filaments resulting in a perfect combination to 'brush off' dirt and 'absorb moisture.' Spectrum Excellence absorbs 5 litres of water per m2 when tested to ISO 105.

Spectrum Excellence is used wherever anyone walks from dirty to clean or wet to dry; intense wear entranceways, heavy commercial, factory to office, hotels, airports, shopping malls, cloakrooms, lifts, kitchen to restaurant, etc.

The entrance of a building is often also the exit. For the safety of all people in the building it is important that the entrance floorcovering is difficult to burn, has a limited spread of flame and a low smoke development. The EN ISO 13501:2000 test shows how Spectrum Excellence Clean-Off-Zone meets the highest demand for fire safety, complying with ISO9239-1.
